

Consolidated Edison Company of New York, Inc.
4 Irving Place, New York, N.Y. 10003

January 28, 1993

TO WHOM IT MAY CONCERN:

The Eastern Scientific Equipment Service, Inc. of Islip, NY, has been engaged in various Con Edison projects, such as:

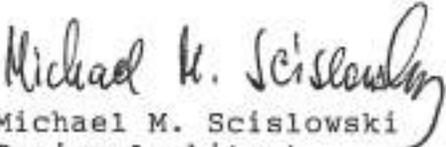

Instrumentation Lab in Astoria Chem Lab,
Environmental Lab in Astoria Chem Lab,
Special Analysis Labs in Astoria,
Chemical Lab in Waterside Generating Station,
and many more.

The ESES staff of outstanding engineers and technicians has the capacity to implement a project from its design to completion, including the preparation of working drawings, specifications and installation of architectural, mechanical and electrical work and lab equipment.

All work was performed in exemplary manner and on time.

The principal of ESES, Mr. Paul Welch, was always present during job inspections and cooperated in project revisions.

It is with pleasure that I recommend the Eastern Scientific Equipment Service, with best wishes for success in the future.

Michael M. Scislowski
Senior Architect
Civil Engineering Department
