To Whom it may Concern:

It was a pleasure to have retained Eastern Scientific Equipment Service, Inc. for the purchase and installation of equipment for our new laboratory.

The design work and drawings for the installation were presented in a most professional manner. The pricing for all of the work done was very competitive. Paul Welsh's team of engineers and installers were very helpful in working around a schedule we created which was very confusing. They were most courteous and cooperative and Paul is to be congratulated for putting together such a fine staff.

Most important, we are very pleased with the outcome of our lab.

Sincerely,

Leo Goldberg
